

**2nd ASEAN University Workshop on Agri-biotechnology
(Biotechnology, Food and Agriculture Seminar)**

June 26, 2014

- | | |
|---------------|---|
| 9.00 – 9.20 | Welcome and opening address by the Dean of Faculty of Science, Chulalongkorn University |
| 9.20 – 9.40 | Overview of agri-biotechnology in Thailand: Asst. Prof. Dr. Rath Pichyangura (Dept. of Biochemistry, Faculty of Science, Chulalongkorn University) |
| 9.40 – 10.00 | Differential expression analysis of subsets of drought-responsive GmNAC and TCS-related genes in Vietnamese soybean cultivars: Dr. Nguyen Phuong Thao (International University, Vietnam) |
| 10.00 – 10.20 | Allelopathy of tropical plants in Thailand”: Assist. Prof. Dr. Warinthorn Chavasiri (Chairman of Program in Petrochemistry and Polymer Science, Faculty of Science, Chulalongkorn University) |
| 10.20 – 10.40 | Break |
| 10.40 – 11.00 | Post-harvest physiology of banana: Asst. Prof. Dr. Kanogwan Seraypheap (Dept. of Botany, Faculty of Science, Chulalongkorn University) |
| 11.00 - 11.20 | Mapping QTL for rice nitrogen use efficiency based on effective nitrogen supply in RIL population: Dr. Nguyễn Thị Thúy Hạnh (Hanoi University of Agriculture, Vietnam) |
| 11.20 – 11.40 | NUS delegation’s talk |
| 11.40 -12.00 | Overview of biological properties of bee enzymes and bee products : Assoc. Prof. Dr. Chanpen Chanchao (Dept. of Biology, Faculty of Science, Chulalongkorn University) |
| 12.00 – 13.00 | Lunch |
